

FROM THE PRINCIPAL

Dear Parents and Community Members,

Dear Parents and Community Members,

During the 2014-2015 school year, all students in the state took a new statewide assessment called Smarter Balanced. These assessments replaced the OAKS reading, writing, and math assessments. Smarter Balanced assessments are more in-depth, going beyond standardized multiple choice tests, and are aligned with the new standards being taught. The new content standards set higher expectations for students, meaning the expectations for student achievement are higher than they used to be. As a result, it is likely that fewer students will score at the higher achievement levels on the assessments, especially the first few years. Results should improve as students have more years of instruction based on the new standards.

Being the first year the assessment was given, no school received an overall State School Report Card Rating. However, you will see school wide results on the following pages but no overall ratings were given to schools this year.

Based on the results reported, this first year Lamb Elementary reported:

- Reading 34% met/exceeded state standards
- Math 27% met/exceeded state standards

As part of our efforts to increase academic success for all of our students and to provide targeted instruction for students K-5, our teachers have received additional training this

summer to provide even higher quality instruction in our classrooms in lesson design, Common Core State Standards, reading, writing and mathematics. As always, we thank you for being involved in your child's education and for being partners with us to ensure our students are college and career ready.

Thank you,

Principal | Scott Stenlund

STUDENTS

OVERALL SCHOOL RATING HOW ARE STUDENTS AT THIS SCHOOL PERFORMING COMPARED TO THOSE AT OTHER SCHOOLS?

The overall school rating is intended to summarize this school's particular successes and challenges. It is based on a combination of up to five factors. Three of these factors come from standardized test scores in reading and math: student achievement, student growth, and the growth of underserved subgroups. Please note that this rating is based mainly on high-stakes testing and, accordingly, doesn't represent a complete view of your school's performance. Other aspects of this report card are designed to put this rating in the proper context.

The U. S. Department of Education has given the State of Oregon approval to temporarily suspend the assignment of school ratings during the transition from the Oregon Assessment of Knowledge and Skills (OAKS) to the new college and career readiness assessments. Schools will not receive an overall school rating on this report card and will receive a new overall school rating on the 2015-16 school report cards.

SCHOOL PERFORMANCE

Performance of students enrolled in the school for a full academic year

Did at least 95% of the students at this school take required assessments? Yes No, Interpret Results with Caution
Participation rate criteria are in place to ensure schools test all eligible students.

The Smarter Balanced and alternate assessments have four performance levels where levels 3 and 4 are meeting the standard for school and district accountability.
